RE: Morgan Hill Triathlon Event Update

Dear Morgan Hill Registrants,

We spoke with our local jurisdictions and they will not have answers on events until the Health Department lifts the ordinance on the stay at home initiative. At this time, we will be rescheduling the 2020 Morgan Hill Sprint Triathlon for June or July of this year. We will not know of a new date until the beginning of May and will be in touch once we have determined the best date that doesn't impact holidays or other events around the community. If the new date doesn't work with people's schedule once announced, we will then follow our Transfer, Credit and Deferral policies for those that can't attend. <http://usapevents.com/event-policies/>

Currently, all 2020 USA Productions events are still scheduled to occur, but we will need to work around this global crisis and keep our community in mind first. We will be in communication regularly to make sure everyone is aware and informed of any changes to our upcoming events and the new date for the Morgan Hill Sprint Triathlon.

If you have any questions, please don't hesitate to contact us directly. We hope you all our safe and healthy at this time.

In good health,

Ryan Coelho

info@usaproductions.org

As mentioned previously, we will put the following initiatives in place to make sure we keep everyone safe around all our events in 2020.

- Sanitization zones around each event area. Transition, Finish, Venue, Porto Toilets and Expo
- Disinfectant spray bottles and wipes in each porta toilet unit, will have one person managing this to make sure they stay clean and supplies are replenished in all areas.
- Extra sinks and disinfectant hand wipes available outside of Porto Toilet areas
- Staff and Volunteers to use nitrile gloves around each aid station and food locations
- We will ask those that are sick to stay home and get well
